

# Giné Giné

DOQ Priorat

Grenache and Carignan  
Licorella (Slate of the Carboniferous period).

Approximately 50% of vineyards between 20 and 30 years old and 50% of old vines on slopes, all of them located in different areas: Bellmunt, Gratallops, La Vilella Baixa, El Molar, La Vilella Alta, El Lloar and Torroja.

Each variety is fermented separately, at a temperature between 26°C and 28°C. The maceration is long. Malolactic fermentation is then carried out. When finished, the blend is made and bottled.

Dry red wine where you can appreciate grape ripening aromas, typical found on Grenache and Carignan of the Priorat.

between 14° i 15°.

between 16 °C i 18 and up to three years after harvest.

Enormous versatility. It combines very well with foods; You can find floral touches, aromatic herbs, pepper, anise or cinnamon, balsamic, toasted or pastry touches. Also with meaty and strong fish. It can be consumed at a cooler temperature on its own and enjoy the ultimate Priorat experience of a Priory without any misdirection.
